## **ENDORSEMENTS**

"Thanks for 'The New Real Book'. Terrific publication. Great collection of tunes and really nicely presented and printed. Continued success to you."

**CHICK COREA**

"Finally, it's here! - the book we've all been waiting for. Great tunes, great manuscript and correct chords. Had 'The New Real Book' been published 20 years ago, life would have been so much easier for all jazz musicians. Thanks to Chuck Sher, it's here now."

**JAMEY AEBERSOLD**

"I love the book! This is a meticulous and eye-opening collection of jazz standards and important originals that deserves the widest possible use in the jazz community. It will set a new standard of excellence and accuracy for years to come."

**RICHIE BEIRACH**

"'The New Real Book' shows tremendous respect for the music and the musicians. The selections are well-researched, accurate and a visual delight. There's a wonderful range of music here, and I'm very happy to be included. Congratulations!"

**DENNY ZEITLIN**

"The book looks great! I'm impressed with the job you've done."

**RUSS FERRANTE (of the Yellowjackets)**

"An outstanding contribution - one of the best I have ever seen. I myself am proud to have two songs in this fine collection. Good luck with it and future publications."

**BOB DOROUGH**

"You have a hell of a book and I can see where I will have a great time using it. You are to be commended for the marvelous job you have done compiling these wonderful songs and making them available to all the students and lovers of jazz music."

## PUBLISHER'S FOREWORD ("Why A New Real Book?")

We at Sher Music Co. are proud to bring you the second in a series of great, legal anthologies of jazz and jazz-related compositions (the first was "The World's Greatest Fake Book"). We hope that these books bring you years of pleasure and that they make your job of creating beautiful music easier.

It has been almost twenty years since the old Real Book came out and we hope that "The New Real Book" will become the new standard book for aspiring and professional musicians and singers around the world. Like the old Real Book, "The New Real Book" has been designed to be useful for any musical occasion - casual (club date), jazz gig, rehearsal band, jam session, etc. This book, however, has taken the old Real Book's basic format and improved upon it in several important respects:

- 1) The standard tunes have been thoroughly researched and often synthesized from as many as eight different classic recordings as well as the original sheet music. This reliance on the weight of history eliminates the arbitrariness of much of the old Real Book. (See Appendix II - Sources, for complete documentation of this).
- 2) The jazz classics here have been transcribed by one of the world's great musical minds (and ears!), Bob Bauer - often with the input of those composers who are still living. On those tunes that were also in the old Real Book, Bob has corrected many mistakes. This will become apparent if you compare both books with the original recordings.
- 3) In response to the request "Play something we can dance to!", this book contains many great, danceable pop-fusion tunes recorded after the old Real Book was already out. We hope that their inclusion will allow you to satisfy the needs of your younger audiences without compromising your own integrity.
- 4) The last twenty years have been fertile ones for jazz composition and "The New Real Book" (in both the Jazz and Fusion sections) contains many tunes written since 1970 that deserve to become part of the standard repertoire of the jazz player. We hope that you will take the time to play and/or listen to the recordings of those tunes unfamiliar to you - you'll be glad you did!
- 5) Unlike the old, illegal Real book, we obtained the owner's permission to include each tune in the book, in exchange for royalties paid. Besides acknowledging the composers' rights to benefit from their creations, this has given us access to their own lead sheets and/or approval of our charts, whenever the composers were still living.

One of the pleasant surprises of being in business is how many people are willing to go out of their way to help a worthy project. My sincere thanks to the following people who have been instrumental in making this book a reality: Chris James of Bourne Co., Dave Bickman of MPL Communications, Judy Bell of TRO, Maureen Woods, Ilyce Dawes, Chet Zdrowski of The Mac Garden in San Rafael, Mary Kay Landon of Kazan Typeset Services in S.F., Jim Zimmerman, Jim Marshall, Susan Muscarella-Park and all the other Bay Area musicians who helped with proofreading, and, of course, all the composers and musicians who played on the recordings we used to derive the charts.

Special thanks go to my father, Maury Sher, for all his help; Ann and Morse Bettison, for their invaluable assistance; BobParlocha of KJAZ, one of the world's great jazz DJ's, for his friendship and wealth of information; Michael Smolens and Ann Krinitsky for the amazing calligraphy work; Bob Bauer, for being a superb person, as well as a genius; and my sweet wife, Sueann for all her love and support (and the hand-weaving on the cover!).

Finally, I would like to dedicate this book to the memories of my uncle, Ben Swartz, who was a friend beyond the call of duty, and my mother, Esther Sher, a real beacon of goodness in this world, who showed me that beauty and meaning in life can always be found if we do our part.

# MUSICAL EDITOR'S FOREWORD

As musical editor, my job has been to produce the charts in this book, using a wide variety of resources. This involved transcribing records, consulting printed music and manuscripts, communicating with composers, and comparing and synthesizing different recordings of a given tune. In addition, it has been my responsibility to ensure, through a process of proofreading and playing the charts (carried out by myself and others), that errors and weaknesses be found and corrected, so that each chart might be as clear, complete, and accurate as possible.

All the information necessary for proper use of the charts is contained in the General Rules and the table of Chord Symbols. It is my intention in the foreword to describe in some detail the process of producing the charts, and especially to point out certain choices made, priorities set, and criteria established by the publisher and myself which shaped the process.

## SOURCES

The various sources - records, sheet music, manuscripts, etc. - are at the heart of the process, and every effort has been made to acquire all pertinent source materials. (See Appendix II, Sources, for a description of types of sources and a listing of the particular sources used for each tune.) We obtained music from publishers, composers, retail stores, and private collections. For records we had access to extensive collections and also ransacked new and used record stores. The gathering of source materials continued throughout the creation of the book, and we often hunted down specific sources or simply additional sources of any kind in order to clear up uncertainties.

It was then necessary to decide which sources would be most useful in creating the final chart for each tune. For most tunes, the sources on paper (lead sheets, sheet music, etc.) fell into a fixed order of usefulness, based on how reliably they conveyed the intent of the composer: 1) Composer's lead sheet (most reliable), 2) Published sheet music, 3) Publisher's lead sheet, 4) Published transcription, and 5) Legal and illegal fake books.

As for the recordings, the following criteria helped determine their usefulness and ultimate contribution:

**Historical Importance And Influence.** With the help of other jazz fans and historians (especially Bob Parlocha of KJAZ) we were able to select classic versions of some tunes, versions that have had the greatest influence on how the tune is played (e.g., Bird & Diz's "All The Things You Are" and Miles Davis's "I Thought About You" and "If I Were A Bell"). The final chart is often based largely on this classic version.

**Agreement With Other Sources.** Except in the case of classic versions, versions which differed greatly from the general consensus, wonderful though they may be, were given less emphasis (e.g., Stan Getz's "Here's That Rainy Day" and Miles Davis's "Nature Boy").

**Clarity And Consistency.** Especially when no sheet music or composer's lead sheet was available, recordings where melody and chords were clear and consistent were more useful than highly interpretive recordings.

**Applicability To Small-Group Setting.** We assume that most players using this book will do so in small-group settings. Many big band arrangements are not easily transferred to a small-group setting, being too complex or relying too much on dense, colorful harmonies.

Please note that the presence or absence of a metronome marking tells how closely a chart is based on a single recording. Those charts with metronome markings (that is, almost all of the more recent tunes and most of the jazz classics) are based largely or wholly on a single recording, from which the metronome marking derives. Such elements as intros, endings, chords, and melody are most likely to be taken from this predominant recording. On the other hand, those charts without metronome markings (the standards and certain well-worn swing, bebop and latin tunes) are each a synthesis of two or more recordings where no one recording predominates.

## THE STANDARDS

The standards (see list of "Choice Standards" in the Index) were the most consistent group of tunes in the book, not only stylistically but also in terms of what resources were available for them. Every standard had published sheet music available (except one: "Weaver Of Dreams"); none had composer's lead sheets. And every standard had been recorded a number of times.

An early choice was made concerning the standards: that their charts, while conveying the composer's intent, should also reflect modern common practice - how the tune is commonly performed today, as demonstrated in recordings by jazz artists. Many elements of a tune may evolve over the years - melody, chords, arrangement, key, tempo, time feel - and to ignore this evolution would limit any chart's current usefulness. Therefore, any consistent change has been incorporated whenever possible. When there is a concensus (agreement among a number of recordings) the change is included in the body of the chart; changes found in only a small number of recordings appear peripherally - as alternate chords or as comments or suggestions accompanying the chart - or not at all.

The keys of the standards reflect common practice. Ignoring vocal renditions (which are transposed to suit a singer's range), there was usually general agreement concerning the key among various instrumental recordings. When two or fewer instrumental versions were available (e.g., "All Of Me" and "Stormy Weather"), the key of the sheet music was given added emphasis. At other times more than one valid key emerged (e.g., "Someday My Prince Will Come" and "Autumn Leaves"). In these cases we looked to the most well-known recording or used our own best sense of contemporary practice.

After much listening and consideration, we determined that, for the standards, trying to reflect common practice regarding melody would be futile - there is far too little agreement among different interpretations, or even between the first and last chorus of most single recordings. Therefore, the melody that appears has been taken directly from the sheet music. There are three exceptions to this: 1) change of key (simple transposition), 2) change of rhythmic notation due to modern convention (e.g., dotted eighth- sixteenth figures were turned into two eighth notes), and 3) actual changes in melody reflecting a true concensus (see "All Of Me", "What's New", and "Darn That Dream").

There was a greater concensus concerning the chords of the standards. Often it was clear after listening to only two recordings what common practice was. Other times it was necessary to consult several recordings before a concensus began to emerge. On occasion we hunted far and wide to find recordings which contained certain chords we felt were needed (e.g., the alternate changes in "All The Things You Are" and "Willow Weep For Me"). Sheet music was never used as a direct source for chords, but only to confirm

common practice. Not wishing to be arbitrary, we have provided many alternate chords in addition to the common practice chords (examples abound; see "I Should Care", "One For My Baby", and "Polkadots And Moonbeams"). Certain alternate chords resulting from the most common chord substitutions have been generally omitted. These substitutions include: 1) iiimi7 V7 for V7 or vice versa, 2) iiimi7 for Ima7, 3) bII7 for V7, and 4) secondary dominant substitutions at the tritone: bII7/V for V7/V, bII7/ii for V7/ii, etc.

When naming chords, it was necessary to decide whether or not to include the upper extinctions (9, 11, 13) or their alterations (b9, #11, etc.) in the chord name. While this issue arose in most of the tunes to some degree, it was most prevalent in the standards. Extinctions are only included in the chord name when present in the melody and are more likely to be included when any of the following are true: 1) the melody note falls on a strong beat, 2) the rhythmic value of the note is a half note or greater, 3) the chord lasts for an entire measure, 4) the melody note does not resolve, 5) the tune has a large number of melodic 'color tones' (upper extinctions) throughout, 6) a particular extinction is used repeatedly in the melody or one section of the melody, or 7) the chord in question has a dominant function or quality.

## OTHER TUNES

Those tunes which are not standards fall into two broad categories: jazz classics and contemporary tunes (including jazz, fusion and pop tunes). Within these stylistic categories, however, a consistent treatment was not possible - the available resources varied too greatly. It is therefore more useful to consider the following categories of tunes which received similar treatment: 1) Tunes for which the composer's lead sheet was available, 2) Tunes for which no chart was available, and 3) Tunes for which published sheet music, a published transcription, or a publisher's lead sheet was available.

Composer's lead sheet available. Some composers were kind enough to provide us with their original lead sheets. Certain elements not present in the composer's lead sheet have been added if they form an important part of the recording(s). These elements include intros, endings, horn parts, bass lines, grace notes, and "diacritical markings" (accents, staccato marks, scoops, etc.) The melody has been taken directly from the composer's lead sheet unless it was necessary to change the octave to correspond to the record. Sometimes the rhythmic notation has been adjusted to conform to the record, without changing where the notes fall. Chord symbols have been changed only to conform to our system of chord naming or for consistency within a tune. The final charts have been sent to the composers for their approval, and even composers who provided no charts originally were later able to give us helpful and much appreciated feedback.

No chart available. When no chart was available, it was necessary to work solely from recordings. Corresponding sections were compared both between different recorded versions and within single versions. In this way it was possible, for the most part, to distinguish composition from interpretation. Some recordings were fairly straightforward melodically, rhythmically, and harmonically, making accurate transcription an easy task (e.g., "Blue Bossa" and "Mercy, Mercy, Mercy"). Others were more complex or more freely interpreted and careful choices and educated reconstruction were necessary (e.g., "Save Your Love For Me", "Theme For Ernie", and "Quintessence"). Certain blues-based tunes have been recorded in such a highly interpretive style that uncovering an "original melody" is neither possible nor desirable (e.g., "Compared To What" and the Mose Allison and Aretha Franklin tunes). These have simply been transcribed directly as performed, with a few rough edges polished.

Published sheet music, publisher's lead sheet or published transcription available. With rare exception, publisher's lead sheets, published transcriptions, and even published sheet music for those tunes other than standards all appear to be someone's transcription of a particular recording of a tune. Though these charts had some use, we did not wish to rely too heavily on the work of others with different priorities and abilities. Therefore, these tunes were all transcribed from scratch, much as if no chart were available.

As with the standards, it has been our intention to provide alternatives. If two valid ways of approaching a tune exist, we have tried to include both in some way.

## COMPLETENESS AND CLARITY

One of our highest priorities has been to include everything considered essential to recreating each tune. To this end, the charts will be found to contain intros, endings, solo sections, metronome markings, descriptions of the time feel, indications of instrumentation, kicks, breaks, dynamics, diacritical markings, rehearsal letters, chord rhythms, alternate changes, sample bass lines, sample solos and fills, and plentiful comments and instructions. In addition, many charts have separate bass parts, horn parts, sample drum parts, and lyrics. Indeed, the degree of completeness distinguishes this volume (and *The World's Greatest Fake Book*) from most other fake books or jazz books of any kind, and makes possible a full, musical rendering of the tunes.

Another priority concerns the layout of the charts - how they appear on the page. A number of things have been done to make the charts clear and easy to follow. Major sections of a tune have been arranged to begin at the start of a line and rehearsal letters have been provided. The *segno* () has also been placed at the start of a line whenever possible. Page turns have been kept to an absolute minimum, with every two-page chart placed on facing pages. The form of each tune is explicitly stated (or implied in the simplest cases - see 'General Rules') so that the proper progression of a tune from the intro, through the head, solos, last head, to the ending is always clear. Finally, the charts have been copied clearly, cleanly, and beautifully by our calligraphers, Michael Smolens and Ann Krinitzky. Michael's contribution, moreover, extends far beyond his excellent calligraphy. He is chiefly responsible for the system of chord symbols we used (see Chord Symbols in the General Rules section). He has also been consulted on numerous technical matters such as chord naming, enharmonics, stacking of chords and accidentals, stemming, layout, and much more.

## THE OLD REAL BOOK

The old *Real Book* has been for some time one of the few printed sources for a number of classic jazz tunes and jazz versions of standards, and its contribution to the jazz community must be acknowledged. Though *The New Real Book* contains more than fifty tunes in common with the old *Real Book*, these tunes have all been transcribed anew from the sources we list - the *Real Book* and other fake books were never used as direct sources.

The present charts contain a wealth of information not found in the old *Real Book*. This includes all of the elements listed above under "completeness" as well as entire new sections (e.g., the intro to "All The Things You Are" and the intro and interlude for "Take

The 'A' Train"). The charts also offer more performance alternatives in the form of alternate changes and sample lines. In addition, many elements of the charts differ from the old *Real Book* in their greater faithfulness to common practice as found on recordings. These elements include the keys of tunes (e.g., "Here's That Rainy Day", "Triste", and "Once I Loved") as well as numerous notes, rhythms, and chords (e.g., the turnaround in "Footprints").

Perhaps more importantly, many errors in the old *Real Book* will not be found in the present volume. Every chart has been compared to the old *Real Book* and all areas of difference have been scrupulously checked against our sources, including composer's lead sheets. Some of the major corrections include: a number of chords &/or melody notes in "Wildflower", "Speak No Evil", "Self Portrait In Three Colors", "Eighty One", and "Ana Maria", four bars previously missing from the middle of "Desafinado", and the key of "Reincarnation Of A Lovebird". On first hearing, these and other tunes which have been corrected may sound just plain wrong to those who learned them from the old *Real Book* and have become accustomed to hearing them that way, errors and all. Some time may be needed to appreciate these corrections and to come to hear the tunes in a new way.

Even after a long and careful process of eliminating faults, it is inevitable that errors remain in a book of this complexity. I am confident, however, that those errors we failed to discover are few and relatively minor. This aside, no chart can capture a tune absolutely or for all time. Thus, we do not claim that the charts within represent the only proper way to perform these tunes, only that they accurately reflect the current concensus. With these charts as a starting point, an unlimited number of arrangements and interpretations are possible. We encourage you to let your creativity run free.

One of the great pleasures in producing this book was that of working with Chuck Sher. His vision guided this project at every step, and he was always willing to do everything necessary to ensure the highest quality. I also wish to acknowledge Michael Smolens and Ann Krinitsky for their consistently fine work. My thanks to Bill Ganz for ongoing support and for help with the Foreword, and to those who helped with proofreading. Finally, I thank the composers and recording artists for their gift of music.

BOB BAUER - Musical Editor

## NOTES FROM THE MUSIC CALLIGRAPHERS

The style of calligraphy that appears here is a combination of an "engraved style" found in printed music (e.g., thin ledger lines, beams, and accidentals, all made with a straight edge) and a "manuscript style" found in common practice and recording studios (e.g., new key and clef warning arches and non-traditional placement of seconds in chords). It was our intention to present the music with the level of clarity and balance that honors Jazz - the music and the tradition - as one would honor any great art form.

The chord compendium in the General Rules section is designed to act both as a "dictionary of chords" and as a system that we hope the jazz community will adopt. It was developed with the musical editor over the course of producing both this and our previous volume as an alternative to the often unclear and inconsistent chord names found elsewhere.

The calligraphy for this project was divided between myself, who handled the layout and all note-related symbols, and my assistant, Ann Krinitsky, who produced the chord symbols as well as the written directions. I initially trained Ann to copy my style of chord notation, and it became clear early on that she could render these peculiar symbols with an elegance and uniformity rarely seen in handwritten music.

When the music called for several parts within one system, every effort was made to line up the voices in a rhythmically accurate fashion, especially in the funk tunes. This facilitates sightreading and provides the player with a "drummer's view" of the music.

Finally, I'd like to acknowledge Bob Bauer for his untiring support throughout the project and Chuck Sher for conceiving this historic collection of jazz compositions.

MICHAEL SMOLENS

(With Feeling): My only words are words of thanks - to Chuck for giving me this opportunity; to Michael, for training me; and to my family and friends (you know who you are) for their love and support throughout the project and always.

ANN KRINITSKY

# GENERAL RULES FOR USING THIS BOOK

## FORM

1. Key signatures will be found at the top of page one, and at the top of page three for tunes longer than two pages. Any change of key will be noted not only where it occurs but also at the start of the next line. The key signature holds even if there is a change of clef, and is not restated. A change of key to C Major will appear as a clef followed by the naturals needed to cancel the previous key signature.
2. The Coda sign is to be taken only when ending the tune unless otherwise stated. Some tunes have dual Codas ( and ) to make it possible to fit a complex tune on two pages.
3. All repeats are observed during a 'D.C. al Coda' or 'D.S. al Coda' except in the following cases:
  - a) when a Coda sign appears in a repeated section; the Coda is taken before repeating (unless marked 'on repeat').
  - b) when an instruction to the contrary appears (e.g. 'D.S. al 2nd ending al Coda').
4. A Coda sign just within repeats is taken before repeating. A Coda sign just outside of repeats is taken after repeating.
5. When no solo form is specified, the whole tune is used for solos (except any Coda).
6. Till Cue | On Cue signifies dual endings for a section that repeats indefinitely. The 'till cue' ending is played until cue, at which point the 'on cue' ending is played instead.
7. A section marked '4x's' is played four times (repeated three times).
8. A section marked 'ENDING' is played to end a tune; it directly follows the last bar of the head.

## CHORDS

9. Chords fall on the beat over which they are placed.
10. Chords carry over to the next bar when no other chords or rests appear.
11. Chords in parentheses are optional except in the following cases:
  - a) turn arounds
  - b) chords continued from the line before
  - c) verbal comment explaining their use (for solos, for bass but not piano, only at certain times, etc.)
12. Optional chords in parentheses last as long as the chord they are written over or until the closing parenthesis is encountered, whichever is longer.
13. Written-out piano or guitar voicings are meant to be played as written. Chord symbols appearing with such voicings often will not describe the complete voicing; they are meant to aid sight reading and are often used for solos.
14. Multiple voices playing different rhythms are separated by having their stems lie in opposite directions whenever possible.

## TERMS

15. An 'altered' dominant chord is one in which neither the fifth nor the ninth appears unaltered. Thus it contains b5 &/or #5, and b9 &/or #9.
16. 'Freely' signifies the absence of a steady tempo.
17. During a 'break. ....' piano, bass and drums all observe the same rests. The last beat played is notated as  or  to the left of the word 'break'.
18. A 'sample bass line', 'sample solo', or 'sample fill' is a transcribed line given as a point of reference.

## TRANSPOSITIONS

19. Bass lines are always written to be read by a bass player, i.e. one octave higher than they sound.
20. Tenor sax and guitar lines are often written an octave higher than they sound and flute lines an octave lower to put them in a more readable range. There will be a verbal note to this effect in every case.
21. All horn and harmony parts are written in concert key (not transposed).

## CHORD SYMBOLS

The chord symbols used in this book follow (with some exceptions) the system outlined in "Standard Chord Symbol Notation" by Carl Brandt and Clinton Roemer. It is hoped you will find them clear, complete and unambiguous.

Below are two groups of chord spellings:

1) The full range of chords normally encountered, given with a C root, and

2) Some more unusual chords, all of which appear in tunes in this book. (Note: some groups of notes below could be given different names, depending on context. See previous page for a definition of 'altered' chords).

## Blame It On My Youth

Music by Oscar Levant  
Lyric by Edward Heyman

**A**

If I ex - pect - ed love — when first we kissed, Blame it on my youth;

If on - ly just for you — I did ex - ist, Blame it on my youth.

I be - lieved in ev - 'ry- thing, Like a child of three;

You meant more than an - y - thing, All the world to me.

**B**

If you were on my mind all night and day, Blame it on my youth;

If I for - got to eat and sleep and pray, Blame it on my youth.

If I cried a lit - tle bit when first I learned the truth,

Don't blame it on my heart, — Blame it on my youth.

Music by Antonio Carlos Jobim  
English Lyric by Ray Gilbert

(Intro) Freely

Sky, so vast is the sky, with far - a - way clouds just won - der - ing by,

Where do they go? Oh, I don't know, don't know;

Wind that speaks to the leaves, tell - ing stor - ies that no - one be - lieves,

Stor - ies of love be - long to you and me.

(Slow Bossa)

A S Oh, Din - di, If I on - ly had words I would say all the beau - ti - ful

things that I see when you're with me, Oh, my Din - di.

Oh, Din - di, Like the song of the wind in the trees, that's how my heart is

sing - ing Din - di, hap - py Din - di, when you're with me.

**B**

I love you more each day, Yes, I do, Yes, I do;

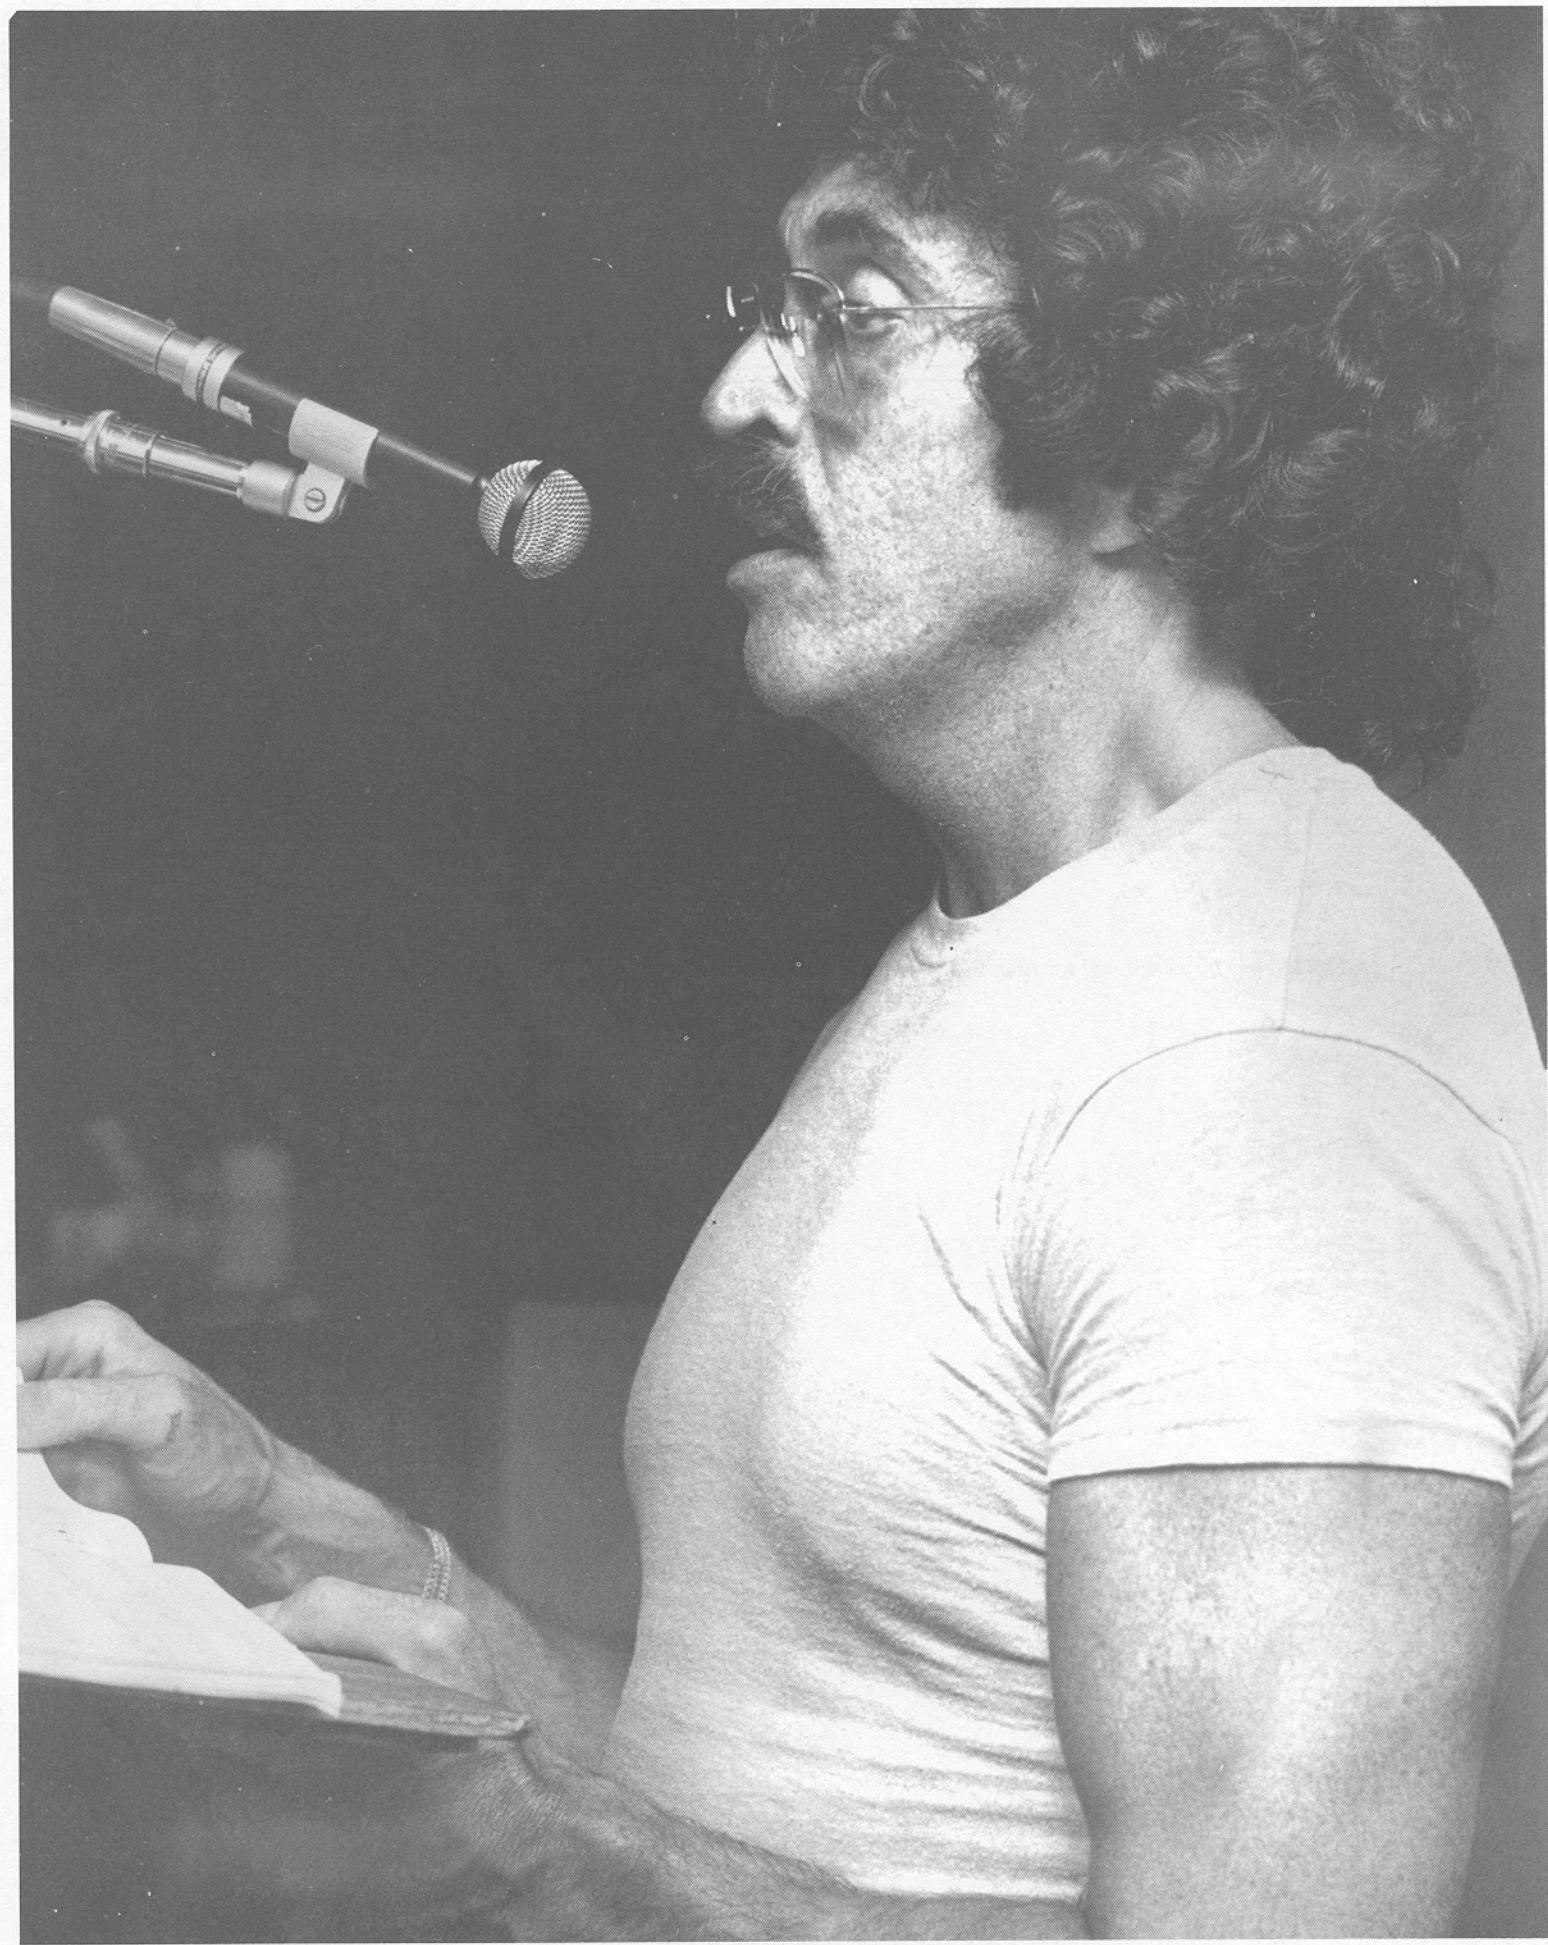

I'd let you go a - way if you take me with you. Don't you

 Believe me, girl.  
 That everyday your need is higher.  
 But love is not Chicago or L.A.  
 Home is where the heart's on fire  
 And where that restless snowbird melts away.

Solos on letter A;  
take 2nd ending at end of last solo,  
vamp & fade on letter B.

3rd VERSE  
 Settle down, there ain't no need to run around.  
 It's really clear, that I'm the man  
 Who's gonna do the super-best he can, to keep you near.  
 Everyday your need soars higher. Love is not  
 Chicago or L.A. Home is where your heart's on fire.  
 Can't deny this love is here to stay.

Wayne Shorter

(As played by Miles Davis)

Handwritten musical score for the first system of "Fall". The score consists of two staves. The top staff is in treble clef and the bottom staff is in bass clef. The key signature is one sharp. The time signature is common time. The score includes lyrics in parentheses: "(trp. w/ ten. 8va b.)", "F#7sus (add 3)", "B13(b9)", "E9sus", and "E♭MA7(b5)". A bracket labeled "3" indicates a triplet pattern. The bass staff has a note labeled "(bass)".

Handwritten musical score for the second system of "Fall". The score consists of two staves. The top staff is in treble clef and the bottom staff is in bass clef. The key signature is one sharp. The time signature is common time. The score includes lyrics in parentheses: "F#7sus (add 3)", "B13(b9)", "E9sus", and "E♭MA7(b5)". A bracket labeled "3" indicates a triplet pattern.

Handwritten musical score for the third system of "Fall". The score consists of two staves. The top staff is in treble clef and the bottom staff is in bass clef. The key signature is one sharp. The time signature is common time. The score includes lyrics in parentheses: "DMA7", "D13(b9)", "GMI11", "BMI9", and "A♭MA7(b5)". A bracket labeled "3" indicates a triplet pattern.

Handwritten musical score for the fourth system of "Fall". The score consists of two staves. The top staff is in treble clef and the bottom staff is in bass clef. The key signature is one sharp. The time signature is common time. The score includes lyrics in parentheses: "F#7sus (add 3)", "B13(b9)", "EMI11", and "AMI11/B". A bracket labeled "3" indicates a triplet pattern.

Bass has melody; it is played with great variation. Treble line continues underneath solos.

LYRIC FOR FINAL HEAD

Once there was a drummer who was straight from New York,  
Tourin' the country with Wardell Gray  
And hey, we could sure say of the drums, he was the toast,  
Really the most, We don't wanna boast, but  
All the crazy chicks would hound him, all the swingin' bands would sound him.  
Then one day he saw the one that made his head whirl,  
He met and married the same little girl,  
What a blend, they are the end, they're real cool, house with a pool,  
Crazy scenes, blame it on the beans.'

Eugene McDaniels  
(As sung by Roberta Flack)

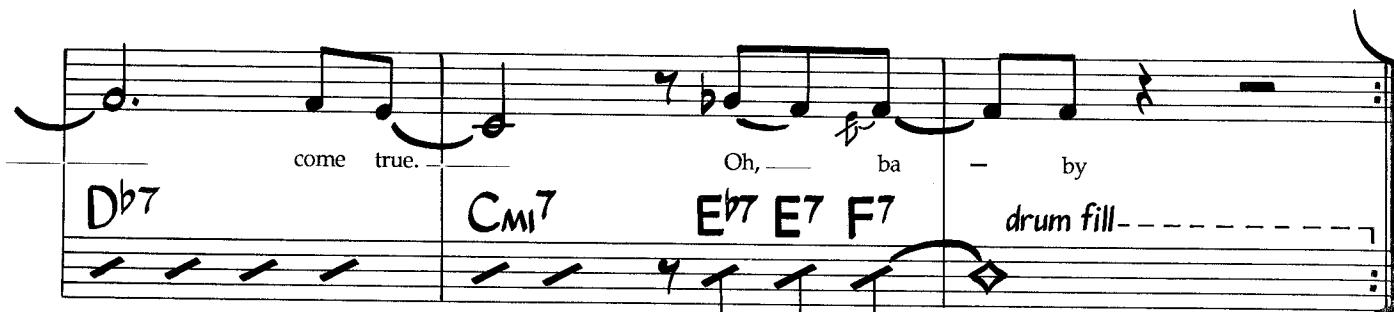

Stroll-in' in the park — watch-in' winter turn to spring. —  
 (sample bass line) (etc.)

2nd VERSE

When you talk to me,  
When you're moanin' sweet and low.  
When you're touchin' me,  
And my feelings start to show. That's the time....(etc.)

To end, sing first verse and fade.

3rd VERSE  
In a restaurant, holding hands by candlelight.  
When I'm touchin' you, wanting you with all my might.  
That's the time...(etc.)

ly with his song. **(fine)**

2nd VERSE

I felt all flushed with fever, embarrassed by the crowd,  
I felt he found my letters and read each one out loud.

I prayed that he would finish but he just kept right on. (Strumming, etc.) But he was there this stranger singing clear and strong. (Strumming, etc.)

3rd VERSE

He sang as if he knew me, in all my dark despair.  
And then he looked right through me as if I wasn't there.

## Mercy, Mercy, Mercy

Josef Zawinul  
(As played by Cannonball Adderley)

(sample bs. line)

A handwritten musical score for trumpet and alto. The score consists of four staves of music. The top staff has a circle with a cross symbol at the beginning. The first two staves are for trumpet, showing chords C<sub>MII</sub><sup>7</sup>, D<sub>MII</sub><sup>7</sup>, and G<sub>MII</sub>. The third staff is for alto, indicated by a soprano clef, and shows a dynamic marking (pn. w/ alto) above a sixteenth-note pattern. The fourth staff is also for alto, with a forte dynamic (f) and a sixteenth-note pattern. The fifth staff continues the alto part with a sixteenth-note pattern. The score concludes with a fermata over the alto staff and the instruction "pn. fill ---". The tempo marking "molto rit." is placed below the alto staff.

Alto phrasing follows trumpet.

1. Three days of snow in Birm-ing-ham, Thought you would won-der

where I am, Rang our num-ber all night long,

No com-fort on the tel - e-phone, Ran out and caught a mid-night flight,

Thought a lit-tle love would make ev'-ry - thing all right, The land-lord said you'd

moved a-way and left me all of your bills to pay,

Look out, ba-by, You might have made your move too soon.

Head is played twice before and after solos.

Piano plays rhythmic figures above the melody first time through, those underneath on the repeat (same changes).  
Tenor sounds one octave lower than written.

Drums play same rhythm as melody during head (except during breaks); solos are straight ahead.

**(Freely)****C**

Musical score for section C, featuring a bass line with harmonic patterns. The bass clef is present on all staves. The music includes various harmonic patterns and fingerings indicated by '3' and 'C' markings above the notes.

Sounds one octave lower than written. All notes are harmonics on the bass, except those notes below third space E in the bass clef. (D#s are produced by fretting D# and playing the harmonic up a 4th on the same string).

*(Vamp solo (scat) and fade)*

**Solo on form (AAB);  
After solos, D.S. al Coda  
(sing 3rd & 4th verses)**

bars 5-8 of A  
for 2nd verse:

A musical score for a single instrument, likely a flute or recorder, featuring a treble clef and a common time signature. The score consists of two staves of music, each with six measures. The notes are primarily eighth and sixteenth notes, with some grace notes and rests. The music is divided by vertical bar lines and includes repeat signs with endings.

bars 5-8 of A  
for 3rd verse:

A horizontal strip of musical notation for organ, consisting of two staves of six measures each. The first staff begins with a treble clef, a common time signature, and a key signature of one sharp. The second staff begins with a bass clef, a common time signature, and a key signature of one sharp. The music consists primarily of eighth-note patterns.

bars 5-8 of A  
for 4th verse:

Piano lick at 8 before letter A is repeated the last 8 bars of letter B.

## 2nd VERSE

The night hangs its head  
As the fool crawls into bed,  
Still his hungry heart begs to be fed  
All the words she once, that she said, that she said,

So then he grabs his Chevrolet  
In one more attempt to get away  
But thoughts of all the crimes of passion lay,  
Lay in his way.

### 3rd VERSE

Romance falls like rain  
But all the motives are insane  
Every time that he plays the game he feels the pain,  
He feels the pain, who is to blame, who is to blame, who is to blame?

4th VERSE

He knows he is beat  
As his heart puts on the heat,  
Run from the street that don't even fit his feet,  
Don't fit his feet, now he can see, now he can really see, now he can

Tell him where's a telephone,  
He can beg to let the fool come home,  
He tells her that his life's a drag alone,  
Can't be alone.

# Someday My Prince Will Come

Med. Jazz Waltz

Music by Frank Churchill  
Lyric by Larry Morey

**A**

Some - day my prince will come,  
Some day I'll find my love, And how thrill - ing that mo - ment will  
be, When the Prince of my dreams comes to me.

**B**

He'll whis - per, "I love you," And  
steal a kiss or two, Though he's far a - way, I'll  
(Cm7 F7 Bb6 )  
find my love some day, Some day when my dreams come true.

## 2nd VERSE

Some day I'll find my Love, Some one to call my own.  
And I'll know her the moment we meet,  
For my heart will start skipping a beat.  
Some day we'll say and do, Things we've been longing to,  
Though she's far away, I'll find my love some day,  
Some day when my dreams come true.

**A**

Handwritten musical score for section A of "Wildflower". The score consists of six staves of music. The first staff starts with a treble clef, a 6/4 time signature, and a key signature of one sharp. It features a melody line with various notes and rests, accompanied by harmonic chords. The chords labeled are  $B^b_{MA}7$ ,  $A^b_{MI}9$ ,  $A^7(\#5)$  (trp.), and  $D7(\#9)$  sus. The second staff continues with a similar pattern, with the label "(ten. 8va b.)" appearing twice. The third staff begins with  $G7(\#9)$  sus, followed by  $C_{MI}7$ ,  $F^{13}$ ,  $B^b_{MA}7(\#5)$ , and  $A^b_{MA}9(\#11)$ . The fourth staff includes  $G_{MI}11$ ,  $C^{13(\#9)}$ ,  $F_{MI}9$ , and  $E^7(\#9)$ . The fifth staff starts with  $E^b_{MA}7$ ,  $C_{MI}7$ ,  $A^b_{MI}9$ ,  $A^7(\#5)$ , and  $D7(\#9)$  sus. The sixth staff concludes with  $B^b_{MA}7$ ,  $A^b_{MI}9$ ,  $A^7(\#5)$ ,  $D7(\#9)$ ,  $G7(\#9)$  sus,  $C_{MI}7$ ,  $F^{13}$ ,  $B^b_{MA}7(\#5)$ ,  $B^b_{MI}11$ , and  $E^{b13}$ . The final staff ends with  $A^b_{MA}7$ ,  $D^b_{MA}7$ ,  $A^b_{MI}9$ ,  $E^{b9(\#11)}$ ,  $D7(\#9)$ , and a final measure labeled "(fine)".

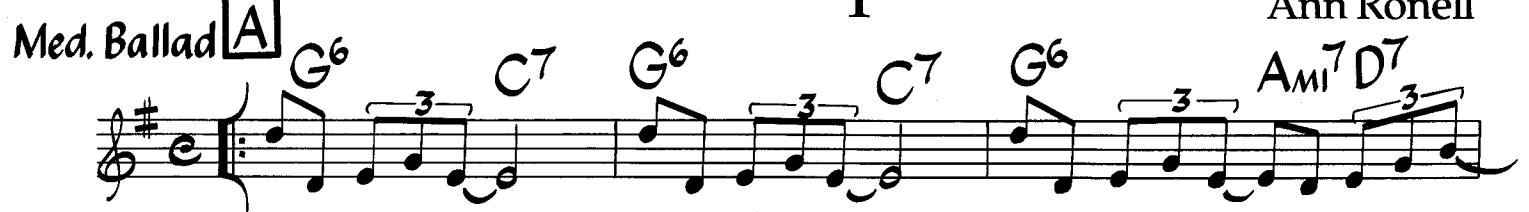

Trumpet plays melody (upper line).

3RD VERSE

You know that life is short, talk is cheap.  
Don't be makin' promises that you can't keep.  
If you don't like this little song I'm singin',  
Just grin and bear it; all I can say is if the shoe fits, wear it.  
If you must keep talkin', please try to make it rhyme.  
Because your mind is on vacation and your mouth is working overtime.

Musical score for "I'm Over Laughin'" in E-flat major. The score consists of three staves of music. The first staff shows a melody line with lyrics: "and play-in' games." followed by a "break" (indicated by a vertical bar and a bracket). The second staff continues the melody with lyrics: "You're o-ver laugh- in'" followed by another "break". The third staff concludes the melody with lyrics: "when things ain't fun - ny," followed by a final "break". Each staff features a bass line below it. Chords are marked above the staff: D $\flat$  for the first two staves and E $\flat$ 7 for the third. Measure numbers 1, 2, and 3 are indicated above the staff lines.

Musical score for "Breakin' Out" featuring three staves of music. The first staff shows a vocal line with lyrics: "You're tryin' to sound like you don't need mon-ey, You know if talk was crim-i-nal". Chords marked are E♭7, D♭, and A♭7. The second staff shows a bass line with a "break" instruction. The third staff shows a bass line with a "bass walks" instruction.

Musical score for 'I'm Not a Crime' featuring lyrics and chords. The score consists of three staves. The first staff shows a melodic line with a key signature of one flat. The second staff contains lyrics: 'You'd lead a life of crime.' followed by a chord label 'A♭7'. The third staff contains lyrics: 'Be- cause your' followed by a chord label 'E♭7 pn. fill'. The music includes various rests and dynamic markings like 'f' (fortissimo) and 'p' (pianissimo). The score is set against a background of horizontal grid lines.

## APPENDIX II - SOURCES

A wide selection of published music, manuscripts, records, and other sources was used in creating the charts in this book. Below is an alphabetical listing of tunes with the major sources used for each.

Sources on paper fall into four categories:

- 1) Published sheet music - usually a full piano/vocal arrangement, though only melody and chord symbols in some instances.
- 2) Published transcription - a literal transcription from a specific recorded version.
- 3) Publisher's lead sheet - an in-house document created by staff transcribers or an outside transcription service with or without the composer's input; it usually reflects a single recorded version.
- 4) Composer's lead sheet - an original lead sheet in the composer's own hand.

The recorded sources for each tune are listed in order of contribution - records listed first contributed more to the final chart than those records which follow. Often other recordings were listened to but are not listed if they added no new information to the charts.

A number of other sources used are not listed here. These include fake books (legal and illegal), feedback from the composers, and suggestions from local musicians who proofread the book.

Med. Ballad B<sub>b</sub>13 A

Look at me, I'm as help-less as a kit-ten up a tree, and I feel like I'm

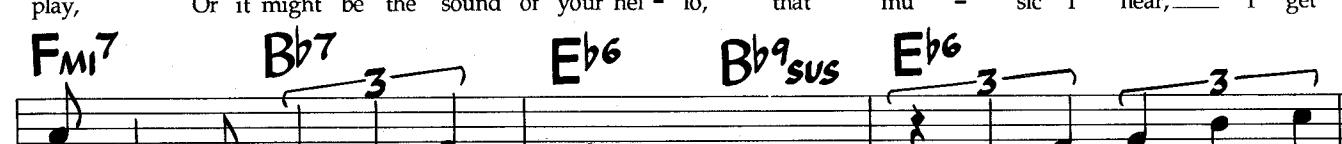

cling-ing to a cloud; I can't un-der-stand, I get mist-y just hold-ing your

hand. Walk my way and a thou-sand vi-o-lins be-gin to

play, Or it might be the sound of your hel-lo, that mu-sic I hear, I get

mist-y the mo-ment you're near. You can say that you're

lead-ing me on, but it's just what I want you to do;

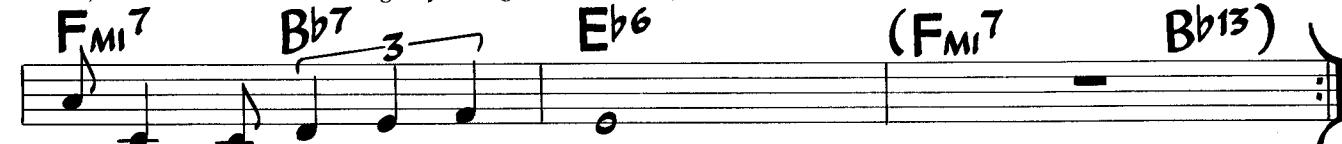

Don't you no-tice how hope-less-ly I'm lost, that's why I'm fol-low-ing

you. On my own, would I wan-der thru this won-der-land a-
